

3,000 DEATHS OCCUR DAILY

Is the Rate From Famine in
China at Present

SUN ELABORATELY RECEIVED

The Government Is to Be Moved to
Peking—Various Departments
Are Now Leaving
Nanking.

Shanghai, China, April 4.—Dr. Sun Yat Sen, accompanied by Premier Tang Shao Yi, arrived here at 6 o'clock last evening and was accorded an elaborate reception. A military guard of honor of 600 men awaited the ex-president's arrival and a large gathering of officials was also present. Charles W. Eliot, president emeritus of Harvard university, gave a reception for the American residents and the Chinese community at which he delivered a speech. H. F. Merrill, commissioner of maritime customs here, later gave a dinner in Dr. Eliot's honor, to which a number of prominent American citizens were invited, including Rear-Admiral Joseph B. Murdock, commander-in-chief of the Asiatic fleet, and his staff. Dr. Eliot leaves for Peking in a few days.

Dr. J. B. Woods, the foreign superintendent of the famine relief work, reports that 3,000 people are dying daily from hunger.

TO DETHRONE CATTLE KINGS.

President Taft Moves Against Monopoly
of Springs and Streams.

Washington, April 4.—In the interest of small cattle and sheep growers, President Taft yesterday issued an order designed to break up the monopoly maintained by cattle and sheep kings on springs and small streams in the great Salt Lake desert in western Utah. The order sets aside these oases and streams as public watering places.

WEIGH YOURSELF BEFORE USING

Weigh yourself before commencing to use Samose, the great flesh-forming food. The wonderful sale of this preparation since introduced in Barre and the remarkable results following its use have made Dr. F. Davis such an enthusiastic believer in the great value of Samose that he gives his personal guarantee to refund the money if Samose will not make thin people fat and restore strength and health to those who use it.

This is a strong guarantee, but Dr. F. Davis has seen so many of his customers who a few weeks ago looked like walking skeletons become plump and well, through the use of Samose, that he feels he cannot say too much to induce people to try it.

This marvelous flesh-forming food is assimilated as soon as it is taken into the stomach, makes good rich blood, tones up the weakened system, helps to assimilate the food and makes the user plump, well and rosy.

PANAMA EXHIBITION OPENING

Will Occur at San Francisco on Feb. 20,
1915—Closes Dec. 4.

San Francisco, April 4.—The Panama-Pacific international exposition will open on Saturday, Feb. 20, 1915, and close on Saturday, Dec. 4, 1915, after a season of forty-one weeks.

Danderine

**Stops Falling Hair and
Destroys Dandruff**

**Makes the Hair Grow Long, Heavy
and Luxuriant and We Can
Quickly Prove It**

**If You Wish to Double the Beauty of
Your Hair at Once, Just Get a 25
Cent Bottle and Try This**

Surely try a Danderine Hair Cleanse if you wish to immediately double the beauty of your hair with little trouble and at a cost not worth mentioning—just moisten a cloth with a little Danderine and draw it carefully through your hair, taking one small strand at a time, this will cleanse the hair of dust, dirt or any excessive oil—in a few moments you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance, the beauty and shimmer of true hair health.

Besides beautifying the hair, one application of Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. It's exhilarating, stimulating and life-producing properties cause the hair to grow abundantly long, strong and beautiful. It at once imparts a sparkling brilliancy and velvety softness to the hair, and a few weeks' use will cause new hair to grow all over the scalp. Use it every day for a short time, after which two or three times a week will be sufficient to complete whatever growth you desire.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25 cent bottle of Danderine from any drug store or toilet counter and try it as directed.

For The Woman

**Who Cares
To Cook Well**

Tacoma, Wash.,
March 2, 1911.

Weir Stove Co.,
Taunton, Mass.
Gentlemen:

We have been using since last November, in our home, one of your Glenwood combination coal and gas ranges, having secured same through your California house, and we consider the term "Glenwood Combination Coal and Gas Range" merely a synonym for "perfection" and we never tire of escorting visitors into our kitchen to admire our beautiful, convenient and perfect range.

Yours truly,
Mrs. W. B. Hawthorne.

Glenwood Range

Reynolds & Son,
Barre

AMUSEMENT NOTES.

First Play After Close of Lenten Season
Will Be "The Rosary."

Every theatregoer in this city knows that "The Rosary" was the most talked-about play in the popular priced houses last season. This play struck the popular chord of the people, and with its many human interest qualities, it proved to be immensely successful. "The Rosary" is being repeated again this season by the well-known producers, Rowland and Clifford, and it comes here on Monday, April 8. "The Rosary" tells a modest and unassuming story of how the watchful and protective influence of a good priest ultimately restored the happiness of a home that has been wrecked by the evil plotting of one who coveted his neighbor's wife, and sought revenge because his rival had won the love of the woman to whom he had paid suit in the days when she was free to choose between them. In consistent action, the truth is made plain that suspicion increasing to what seems certainly guilt, is easily engendered where even absolute innocence prevails, and the story's progress makes plausible its culmination in what seems irreparable disaster.

Equally plausible, however, is shown the power of the influence of good fighting against evil. The exposition is so simply and plainly submitted that the play's story of battle between good and evil is made to possess all the appeal of the earlier morality plays with which the stage had its beginning. The title character, Rev. Brian Kelly, is at every moment true to life, a zealous and watchful shepherd, solicitor of the safety of souls, brave in the performance of his duty, fervent and uncompromising for the right. The play's teachings throughout are of the highest value in essentials. Many homes have been made happy through the teachings of "The Rosary." The very root of love between man and wife is shown in the play. You will enjoy many laughs in the play as much as you will profit by its morals. Buy your seats early.

ROGERS IS THE 127TH

Aviator Who Crossed Continent
Killed

CRUSHED UNDER AEROPLANE

Neck and Back Broken as He Is Caught
Under Heavy Engine When Biplane
Plunges Into Surf at Long
Beach, Calif.

Long Beach, Cal., April 4.—Galbraith P. Rogers, the first man to cross the American continent in an aeroplane, was killed here almost instantly yesterday, when the biplane in which he had been soaring over the ocean, fell 200 feet, burying him in the wreckage.

The heavy engine of his machine caught him, breaking his neck, back and jawbone and badly mashing his body.

Rogers had been making daily flights here for a week past. Yesterday after soaring over the ocean and making a couple of dives, he flew farther out and turning, started at full speed for the shore.

Suddenly his planes dipped and the machine began a frightful descent. The aviator tried strenuously to pull the biplane's nose to a level position. Failing in this, he managed to turn the craft inshore, an instant later it crashed into the edge of the surf, not 500 feet from where, last December, he finished his ocean to ocean flight.

Many rushed to his aid, but he died a few moments after being pulled from the wreck.

The machine he used yesterday was one in which he won \$1,000 last July at the Chicago endurance meet. It is a total wreck, many parts having been swept out to sea by the tide.

Notwithstanding that Rogers had met one of the longest and most arduous of his fellow members in the Aero Club of America considered him lucky. His transcontinental flight, begun at Sheepshead Bay, N. Y., Sept. 17, 1911, was marked on the second day out by a crash into a tree. Within eight days of Long Beach, his Pacific coast goal, he fell, sustaining injuries that laid him up nearly a month.

He also suffered a long succession of minor mishaps and lucky escapes before he was acclaimed the world's aviation hero.

His machine had been broken so many times en route that only the vertical rudder and dripping pan of the original outfit remained when he finished his long flight.

Rogers' death makes 127 aeroplane fatalities since aviation began. He is the 221 American aviator killed.

POLICE BEAT GIRL WORKERS IN PASSIAC, N.J.

Strike Pickets Clubbed Over the Head
When They Fail to Disperse Fast
Enough.

Passaic, N. J., April 4.—Twenty girl mill workers were beaten with police clubs by special officers in a clash between the girl strikers and the officers guarding the Garfield mill of Forst, Mann & Handman here yesterday.

Girls, who were in the squad of pickets, declare they were beaten without the slightest warning. Witnesses assert that girls were clubbed over the heads, arms and shoulders, and that several fell beneath the blows.

TWO YEARS IN PRISON

For Amos LePine, Found Guilty of Com-
mitting Larceny.

Burlington, April 4.—Amos LePine, charged with grand larceny by stealing \$34 from Mrs. Rose Mitchell, the cash being in a pocketbook on the counter in Mrs. Mitchell's restaurant, on Battery street, was found guilty of the crime alleged by the jury in Chittenden county court yesterday.

The question up to the jury was whether LePine was guilty of grand or petit larceny. Mrs. Mitchell said that there was \$34 in her stolen pocketbook. LePine admitted the theft, but said he only took \$18. No part of the cash taken was ever recovered, although LePine was observed afterward to be "flashing a roll."

The state's attorney moved for sentence after the verdict was returned. LePine was asked if he had anything to say and replied that he ought not to receive a big sentence for the amount of money he had really taken, which was not so large as had been charged against him. The court sentenced him to serve not less than two or more than three years at the state's prison in Windsor.

Clara Schurman, against whom an information was filed recently, charging the illegal sale of liquor, appeared in court and pleaded guilty. She was sentenced to serve twelve months in jail, sentence being suspended and the respondent placed in the care of the probation officer during good behavior.

FIND 27 STOWAWAYS.

Ship In Port Five Hours Before They
Were Found.

Boston, April 4.—Immigration officials and Boston police captured 27 Italian stowaways on board the White Star liner Cretic yesterday afternoon and arrested two of the crew on a charge of conspiracy to bring into this country aliens not eligible to enter.

The men were hidden in an unused water tank in the aft peak.

The immigration officials had been warned of their presence before the steamer's arrival with the information that there were dangerous criminals among them. Most of them were armed.

A CARD

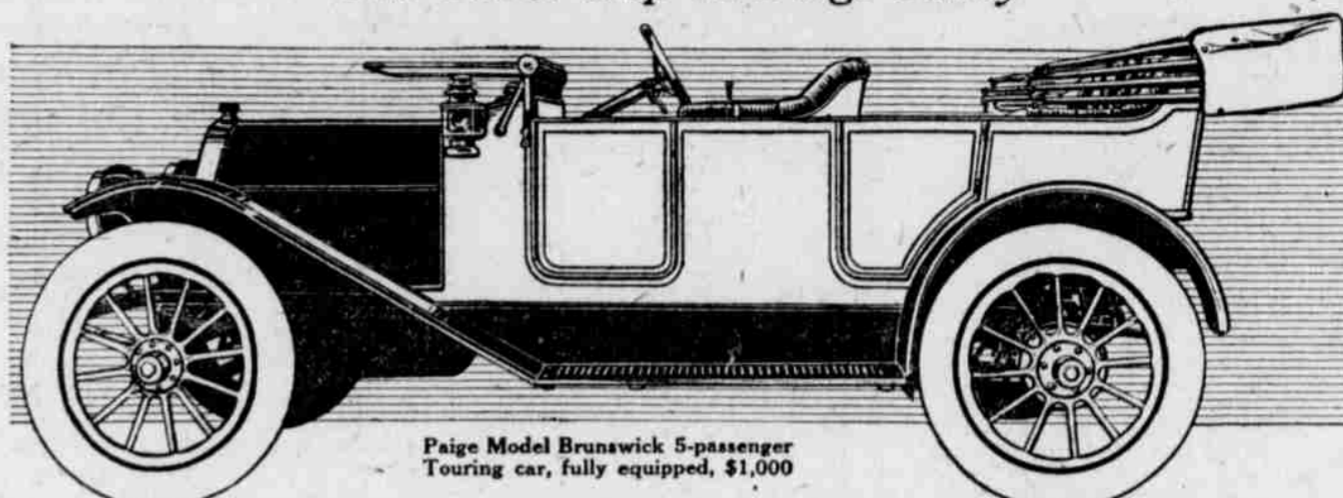

We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Green's Warranted Syrup of Barre, if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory, or money refunded.

PAIGE

Regular Equipment Now Includes Top and Wind-shield

The Final Step in Paige Policy

Paige Model Brunswick 5-passenger
Touring car, fully equipped, \$1,000

WE ANNOUNCE with pleasure this last great addition in the equipment of the Paige car. We believe that every prospective purchaser of an automobile, conversant with what the market offers in motor cars at Paige prices, realizes the importance of this step—realizes the tremendous lead the Paige car now has, fully equipped with top and wind-shield included—realizes that in order to include this equipment with the already 100% value of the Paige it has been necessary to put a part—and a large part—of our profits back into the car.

It wasn't necessary to add either top or wind-shield to Paige equipment to make it the best value in its field. No one complained because they were not given with the Paige. Purchasers of thousand-dollar cars realized that the Paige gave the essential automobile values. They have shown preference for the Paige in the face of all the alluring equipment offers of other manufacturers—shown such a preference that they have already bought thousands of Paige cars and have been satisfied to pay extra for the top and wind-shield. Our estimated and announced production of 3500 cars for this year has already been exceeded. That's indisputable proof of Paige quality. Now—with the top and wind-shield added to Paige equipment without extra cost—carrying out our fixed determination of giving more and better than any other manufacturer—the Paige offers motor car value not even approached by any other car at its price.

The Paige policy in manufacturing and selling has always been to put back into the Paige car every year part of the Paige profits, but this year there is nothing we can do to better the car down inside. It is built as well as we or any other manufacturers can build a car of its size and

See the Paige car—examine it in every detail of construction. Compare it with other cars selling at Paige prices—or more. Ride in it—test its power, its speed, its easy riding qualities, its simple operation. Note the sure, smooth engagement of its cork insert multiple disc clutch—a clutch found elsewhere only on cars selling for \$1600 and more—study the many other BETTER features of the Paige. Consider it just as an automobile, then consider the organization which produces it and the men back of it and make your own conclusions.

Models and Equipment

Paige regular equipment includes top, single-vision wind-shield, three black enamel oil lamps, two black enamel head lamps, generator, tool kit, jack, etc. Detroit Quick Demountable Rims on Models Beverly and Brunswick, including tire irons, \$15. Same equipment on Kenilworth, \$12.50. (Self-starter and Prest-O-Lite tank will be installed, if desired, at the factory for nominal charge of \$25.)

Model Brunswick, 5-passenger touring car, fully equipped as above. Price \$1000.
Model Beverly, 4-passenger torpedo touring car, fully equipped as above. Price \$875.

Model Kenilworth, roadster, fully equipped as above. Price \$1000.
Model Brooklands, raceabout, regularly equipped with Prest-O-Lite tank, self-starter, and demountable rims. Price \$975.

PAIGE-DETROIT MOTOR CAR COMPANY, DETROIT, MICHIGAN

FATTENED ON SUGAR BEETS.

Steer Weighing Over 2,500 Pounds Ar-
rives at Chicago from Montana.

Chicago, April 4.—With the arrival at the Chicago stock yards of the largest range-fattened steer ever received there, another of the many laurels long won by King Corn without a successful rival has been snatched away by the humble sugar beet. Recently an investigation conducted in Iowa showed that the net profit to the farmer from the growing of beets was far in excess of the yield secured from the same land in corn. Now it appears that the tops and pulp of the tubers are superior to the great western staple as a food for livestock, for the giant steer that tipped the stock yard's scales at a higher figure than any previously recorded there for an animal coming direct from the range was fattened on the by-products of sugar beets. His weight was over 2,500 pounds.

AFTER LONG SUFFERING

These Two Women's Health
Restored by Lydia E. Pink-
ham's Vegetable Com-
pound—Read Their
Own Statements.

Cheneyville, La. — "Some time ago when in poor health, suffering from feminine ills, I began to take Lydia E. Pinkham's Vegetable Compound and Liver Pills. I soon felt better and gained in strength and flesh. A gradual improvement continued as I took the Compound, and from 120 pounds I now weigh 155, and feel that my life has been prolonged.

"I deeply regret that I did not know of your medicine long before I did. Friends often speak of the wonderful change in my health, and I tell them that your medicine did it."—Mrs. J. W. STANLEY, Cheneyville, La.

Distressing Case of Mrs. M. Gary, Chicago, Ill. — "I have used Lydia E. Pinkham's Vegetable Compound for backache and it has certainly made a new woman of me. After my first baby was born I was left a perfect wreck. I was so weak I could hardly do my household duties and suffered with an awful backache. But since I have used your Compound the pains in my back have left me and I am strong again.

"My mother used it also through Change of Life and speaks very highly of it. You can use this letter any way you wish. I think it is only fair for one who has suffered as much as I, to let others know of your great remedy."—Mrs. M. GARY, 2568 N. Ridgeway Ave., Chicago, Ill.

NEW QUEST OF MISS

ARNOLD IS POSSIBLE

Mother of the Missing Dorothy Sailed
Away Secretly for Europe—Will
Meet Shackelford.

New York, April 4.—Despite the veil of secrecy thrown about the movements of the family of the missing Dorothy Arnold, it became known Tuesday that her mother sailed for Europe last month. Mrs. Arnold arranged for a meeting in a secluded town in France with Miss A. C. Shackelford and Miss M. L. Shackelford, daughters of the late United States consul at Nantes, who were with her at Florence, Italy, when George S. Griscom, Jr., was questioned about the disappearance of Dorothy.

The Misses Shackelford went to France last fall at about the same time John W. Arnold, Dorothy's brother, and his wife made a trip abroad.

"My mother went to France to visit the Misses Shackelford," said John H. Arnold. She sailed on the steamship Kronland and expects to be in Europe several months. The fact she has been greatly annoyed by cranks and letter writers added to her desire to leave New York.

Mr. Arnold said his mother would make her headquarters at the home of his uncle in Munich. He intimated his father might follow her in a short time. "It is impossible for me to tell where Mrs. Arnold is at present," said J. S. Keith, legal adviser of the family. "There is no truth in the report circulated since Mrs. Arnold left here that she has found her daughter."

Since Dorothy Arnold disappeared, December 12, 1910, her mother has made three trips to Europe. Mrs. Arnold and her son visited George S. Griscom of Pittsburgh, who was staying at an Italian hotel with his 44-year-old son, George, Jr. From the younger Griscom, John W. Arnold obtained a package of letters written by Miss Arnold.

Mr. Griscom has repeatedly declared he had promised Mrs. Arnold not to make any detailed statement of what he knew concerning Dorothy.

ENGINEERS FAVOR STRIKE.

Their Ballot So Far Seems to Indicate
This.

New York, April 4.—Officials of the Brotherhood of Locomotive Engineers announced yesterday that the balloting of the engineers of the fifty eastern railroads to determine whether the engineers will strike if necessary to support their demands for increased wages is proceeding rapidly, and that the ballots received so far indicate that the men are in favor of a strike. The wage demands have already been refused, and further conferences with the heads of the railroads were suspended until the engineers' committee could take a strike vote, which will be announced on April 10. The ballots sent to the engineers read, in part:

"The prestige of the organization is at stake. Are you willing to support those entrusted with the carrying out of the plan of concerted action to the extent of a strike if in their judgment it is deemed necessary?"

GRANITEVILLE.

Grand Easter Monday ball and play,
"Down in Maine," will be given in opera

hall, East Barre, Monday evening, April 8, under the auspices of Silver Leaf circle. Admission to play, 10c. Dancing until 2 o'clock, 50c per couple.
